Dear Aleksandra Cichocka,

Congratulations! Your application: **"COVID19 International Collaboration on Social & Moral Psychology"** has been fully approved by the review committee panel with an Ethics ID of **202015872211976468**. The application will expire and may require renewing at this date: **18-04-22**

Comments in relation to your application from the panel can be found below:

Chair approval feedback

I have made a decision on this myself after a short email exchange with the researcher. The questionnaire items raise no ethical concerns and I have been informed that individual departments/researchers will either use our approval or request further local-level approval. Good luck with your study.
